The coming of Capt. Richmond P. He will also discuss the European war situation to some extent, and the relation of all nations with their action in regulatory and prohibitory measures. Even Germany has taken action in line with this.

## Questions.

**MISS GEHLEN**—I can send you the recipe for a tonic for the hair which will make them thick, or you can use plain vaseline, which is slower, but effective. I would not advise a bleach for faded looking hair—the fact that it is faded looking shows it needs nourishment, not bleaches. Get a good hair tonic, one with not much alcohol, or write me and enclose a self-addressed stamped envelope and I will send you the recipe for one. A richer color will come into the hair with better health. An egg shampoo acts as a mild bleach in the case of light brown hair.

**Mrs. Schwartz**—I am sorry not to be able to recommend a hair specialist to you, but I do not think you will have any trouble in finding a good one. I will send you a recipe for the hair tonic you request if you will send me a self-addressed stamped envelope.

**E. R. T.**—If you will send me a self-addressed stamped envelope, with name, address, and your letter more fully about the scar—a good dermatologist

Any woman can gain whatever she seeks earnestly—if it be beauty she can gain that also.

can remove it and the depression of the skin too, but I cannot tell about prices, it depends upon the specialist's skill and the time it would take to have the work done. This applies to face-peeling as well as to your simple and blackheads come from an over lax digestion. You need only wash the face twice a day—once with hot water and soap, and once to rinse it with cold water. More often, unless the face has become soiled, dries up the skin.

**Betty Lee**—The shampoo you mention is good I believe, but expensive. A shampoo with an egg is quite as effective. I can send you a self-addressed stamped envelope in a letter. The prescription you enclose is not good for the reason that it contains so much alcohol—the hairton having a lot in it, and the other ingredients, as you say, containing 50 percent. In time this will cause gray hair.

**Columbine**—Coccol butter is excellent for developing the bust. Drink plenty of water. One who says after this part of the body. Deep breathing exercises should be taken as well.

**Mrs. Hanson**—I did not find any envelope in your letter—are you sure you enclosed one?

**Dr. Beck Says Hot Sun and Heat Weaken The Eyes; Tells How To Strengthen Eyesight 50% In One Week's Time In Many Instances**

**A Free Prescription You Can Have Filled and Use at Home.**  
New York, N. Y. Do you wear glasses? Are you a victim of eyestrain or other eye weaknesses? If so you will be glad to know that according to Dr. Beck there is real hope for you. He says that exposure to sun, smoke, dust or wind often produces eyestrain, and people living in southern climates should frequently bathe the eyes and be careful to protect them from extreme light. This prescription will prove of great value to many eye sufferers. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says after trying it: "I was almost blind, could not see to read at all. Now I can read anything without my glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady writes and says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seemed clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a week's time.
